Expires  
12/15/2012

Sample Type  
Tincture

Dixie X Hemp CBD 500mg Dew Drop

TestID  
DED10.12.12-2

The below test is reported in percentage by weight, milligrams per gram, or milligrams per final consumable weight. THC-A is not decarboxylated (not active) and shall not be reported in the total active cannabinoids. THC-A is converted to active THC in the calculated active column using the formula (THC-A × .877 = THC). Total assayable cannabinoids simply represents the sum of the cannabinoids detected in the sample. If THC-A is not detected in the sample, the calculated active and total active will remain the same. Edible results may be lower than expected, this is due to circumstances outside of CannLabs control such as cannabinoid material adhering to the manufacturer's packaging. This report and all information herein shall not be reproduced, except in its entirety, without the expressed consent of CannLabs. This report is for informational purposes only and should not be used to diagnose, treat or prevent any medical related symptoms.

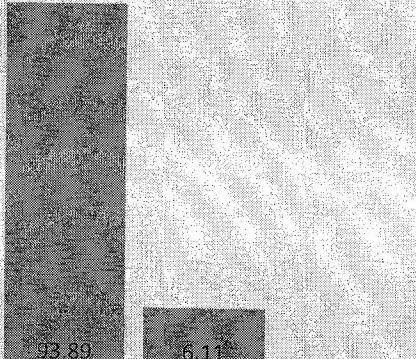

## Certificate of Analysis

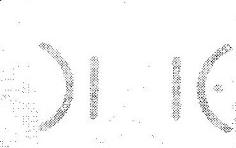

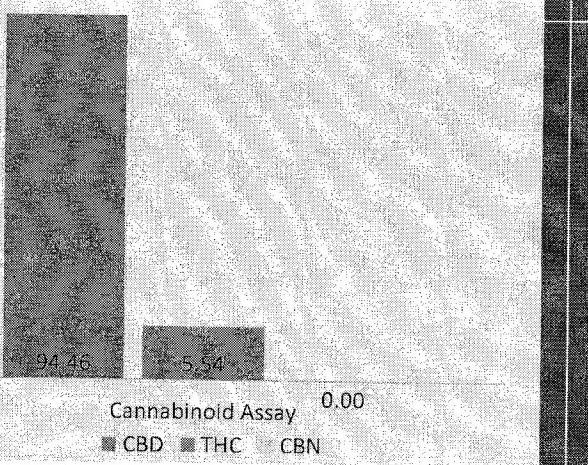

## Product Details

Maximum Legal Limit	Amount per Product
THC	0.3%
	0.05%

Net Wt.	68 g
Total CBD	516.78 mg
